INTRODUCTION

“The past few years have shown how valuable consistency, a sense of responsibility, and a clear stance are in a changing world. Waldmann has always embodied these values, supported by meticulous craftsmanship, high-quality materials, and consistent manufacturing in Germany. With this foundation, we are now looking ahead to a new era that demands both preservation and renewal.

On January 1, 2025, as part of the company succession plan, I took over the traditional writing instrument brand Waldmann, thus becoming the fourth generation in the company's history. This step was much more than a business investment. It was the beginning of a committed journey that respects the tried and tested while courageously looking ahead. The expanded vertical range of manufacture at our plant in Ölbrenn-Dürrn creates valuable synergies that strengthen the brand's manufacturing philosophy and provide new impetus for its further development. At the same time, it is important to us to reintroduce the younger generation in particular to writing in an increasingly digital world, because reading and writing shape people and create a depth that no digital medium can replace.

All of this is done out of deep conviction. The appreciation of our customers confirms and strengthens us every day in our approach, motivating us to come up with new ideas. We are truly grateful for this, and are committed to leading Waldmann into the future with joy, respect, and determination.

On behalf of all our employees, I would like to thank you for your trust in Waldmann writing instrument manufacturing.”

Felix Bechtold, Managing Director Waldmann GmbH

LEGACY ONE

Elegance meets masterful craftsmanship. This writing instrument is crowned by a fully hand engraved cap, designed as a tribute to the Black Forest. Fine structures and depth in the décor speak of nature, heritage and permanence. The beginning of a legacy, created to make the qualities of German craftsmanship visible, precision, dedication and timeless values that connect generations.

FEATURES

- hand engraved Black Forest motif
- highly polished
- solid spring supported clip
- component parts platinum plated
- solid sterling silver 925
- 100% made in Germany
- 10 years warranty
- engraving possible on clip
